United States of America
The Diabetes Centre is a registered as a "not-for-profit" corporation in Washington state, USA. EIN- 47-5252417, UBI- 603-547-359
A MESSAGE FROM OUR CHAIRMAN

Friends,

The past year was another eventful and successful year with many activities towards fulfilling our mission. As the word of our quality medical care has spread, the interim Diabetes Clinic has grown rapidly in the number of patients served, with some coming as far from Kashmir and Afghanistan. We also had multiple Diabetes Education and Awareness activities in Pakistan and abroad. And we continued to raise funds for The Diabetes Centre project, which is in its final stages.

TDC Board election was held last year. I am happy to note that the board has grown in size from 3 members to 8, in pace with our growth as an organisation. Additionally, we now have female representation on the board, bringing to the table an important perspective that was missing.

Of significance, our organisation joined a select group of other welfare organisations in Pakistan by achieving the coveted certification from Pakistan Centre for Philanthropy (PCP). The PCP certification signifies TDC’s commitment to excellence in governance, operations, and financial management. We are certain that through the mercy of The Most Merciful, we will continue to grow and be recognised for our services.

We have promises to keep.

With enthusiasm,

Dr. Asjad Hameed
CONSTRUCTION UPDATE

THE DIABETES CENTRE WILL BE A STATE OF THE ART, FIRST OF ITS KIND CENTRE IN PAKISTAN.

The grey structure of the 72,000 sq foot 5-storey building has been completed. The boundary wall has been partially completed. The contracts for interior design and landscaping have been awarded. The building will have 32 clinic rooms, laboratory, radiology, pharmacy, specialty clinics for eye care, foot care, diabetes day care, male health, kidney care, and a dental unit. A conference centre and administrative block would be part of the building. The addition of 4 single bedroom apartments on the top floor will provide accommodation for the visiting doctors and consultant. The project is slated for completion in 2016.
In 2015, more than 14,000 patients came to Diabetes Clinic from all over Northern Pakistan, Kashmir, and even Afghanistan to find trusted medical care. Our team of experts delivered safer, better and more efficient care for every patient with compassion and collaboration.

AUDITORS’ REPORT TO THE BOARD OF DIRECTORS

We have audited the annexed balance sheet of The Diabetes Centre (TDC or “the Company”) as at June 30, 2015 and the related income and expenditure account, cash flow statement and statement of changes in funds together with the notes forming part thereof, for the year then ended and a summary of significant accounting policies and other explanatory information.

Management Responsibility for the Financial Statements

Management of the TDC is responsible for the preparation and fair presentation of these financial statements in accordance with the approved accounting standards as applicable in Pakistan, and for such internal control as the management determine is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
Opinion

In our opinion, the financial statements present fairly, in all material respects, the balance sheet of TDC as at June 30, 2015 and income and expenditure account and its cash flows for the year then ended in accordance with the approved accounting standards as applicable in Pakistan.

Other matter

Financial statements of previous year was audited by another firm of Chartered Accountants who expressed an unmodified opinion on those financial statements vide their report dated October 03, 2014.
